Synthetic fibre interlock braided packing impregnated with PTFE and break-in lubricant

- A general purpose packing with good chemical resistance and high tensile strength
- Thorough impregnation of PTFE provides trouble free start-up and low friction operation
- A high density packing good for crystallising media
- A filament core provides mechanical strength and dimensional stability
- Widely used for knife gate valves
- Food Grade certified as per Commission Regulation (EU) No 10/2011 of 14

*Preformed rings available*

<b>Service Media and Conditions</b>	Water, chilled water, cooling water, solvent, mild abrasives, brine, salt water, mild acid and alkali, foodstuff etc
<b>Temperature</b>	-100°C to 260°C
<b>Pressure</b>	100 bar (static), 20 bar (rotary), 80 bar (reciprocating)
<b>Shaft Speed</b>	12 m/sec (rotary)
<b>pH</b>	2 to 12
<b>Applications</b>	Pumps and valves, knife gate valves
